[LinkedIn](#) / [GitHub](#) / [Frontend Mentor](#)

A passionate front-end developer with 3+ years of experience in creating responsive, accessible, and interactive websites and apps using modern web technologies and frameworks. Seeking to apply my skills and knowledge to contribute to the success of innovative projects and teams.

## EXPERIENCE

### JavaScript Developer | Basics Engage | Feb 2023 – Present

Developing and maintaining a set of tools that help customers boost their marketing plan to achieve better results using Next.js, Tailwind CSS, Express.js, MongoDB.

### Freelancer | Jan 2022 – Present

Coordinated with team partners to finalize designs and develop static and dynamic websites based on customers' requirements.

## PROJECTS

### Kasbcapital.sa | Eleventy & Express.js

#### [Live Site](#)

- Built a website to represent an investment fund company using Eleventy as a static site generator. Designed an optimal layout for any device's screen size and created multiple pages to showcase the company's about, teams, and products.
- Created a blog with an integrated CMS using Netlify CMS that increased website traffic by sharing announcements and updates with the target audience.
- Developed an Express.js app that uses form inputs to fill a PDF agreement and print it to the user that increased engagement.
- Implemented an admin dashboard to display submitted form data using Nunjucks.

### Elhabbalgroup.com | HTML & Less.js

#### [Live Site](#)

- Developed a responsive website using HTML and LESS to showcase the company's projects, vision, team, and contact details.
- Implemented a slider feature for each project page to display the before and after images of the work done by the company.
- Collaborated with another developer and a designer to deliver a high-quality website that met the client's expectations and requirements.

### Collection of Different Components

#### [GitHub Repo](#) – [Live Site](#)

- A collection that contains presentational components to preview articles, products, and ideas. As well as interactive components to help users rate, buy products, and complete forms.

## EDUCATION

### Helwan University | Cairo, Egypt (2020)

### Full Stack Open | Huston Inc.

#### [Certificate](#) – [Projects](#)

- Building single-page applications with ReactJS, REST APIs / GraphQL, and Node.js.
- Testing Apps with tools like Jest, react-testing-library, and Cypress.
- Storing application's data using MongoDB.

### Algorithms & Data Structure | Frontend Masters.
